

Innovating with Data

November 7, 2017

Fredrik Erixon, European Centre for International Political Economy (ECIPE), Brussels

Dynamics of Innovative Change

- What is innovation?
- Entrepreneurship
- Experimentation
- Outcome

Firms and Markets – not data – are what matters

- Market concentration and competition: where and how?
- Contracts, markets and innovation
- Data driven innovation happens everywhere: questions if what outcome we want and at what pace?

Learnings from Europe

- Competition cases (and innovation)
- Market failure and regulatory failure
- Fear of disruption or promise of change?
- Regulation – increasing or lowering the barrier to entry?
